

Hi Nina,

I really like the edits you made to the website! I really like the simplicity of the homepage.

There's just a couple small things I would fix:

- Change the color of the titles on each page to a dark green color(?) (i.e. where it says early life and professional career on each page)
- For the honors and achievements, space everything out because everything is too close together and hard to read. Also it would be nice to make the font size bigger.

Thanks!
